

PRB

ACTIDÉMOUSSE FLASH

FAST CURATIVE TREATMENT

The PRB ACTIDÉMOUSSE FLASH

- Ideal for facades
- Fast action (4 to 8 h) on contaminated substrates
- Returns materials to their initial appearance
- Recommended before painting

Ready-to-use

PACKAGING

– 20 l Jerrican.

STORAGE: 12 months.

CONSUMPTION

0.2 l/m², i.e. 1 l per 5 m².

AREA OF USE

USE

- Fast curative exterior decontaminating treatment.

AREA OF USE

Facades:

- Renders, stone, marble, plastic coatings, paint, ceramic coatings...

Roofing:

- Tiles, slates...

Floors:

- Paving, concretes...

- Other substrates, contact us.

PRECAUTIONS FOR USE

- Not suitable for water treatment.

APPLICATION CONDITIONS

- Between 5°C and 35°C.

Should not be used:

- During frosty spells and at low temperatures.
- On frozen or thawing masonry.

Before applying cleaning products:

carefully protect (polyane, tarpaulin) all structures from spray, especially: joinery, rolling shutters, rainwater drainpipes, surrounding vegetation, paving, etc.

A compatibility test on the coating is recommended.

TECHNICAL CHARACTERISTICS

COMPOSITION

- Sodium hypochlorite solution with a strong wetting agent.

PRODUCTS

- Appearance: liquid
- Colour: pink
- Density: 1 ± 0.05 t/m³
- pH (alkaline): 12 ± 1

PREPARATION

APPLICATION

- Use the product undiluted.
- Mix the product before applying it in order to obtain a good consistency.

Apply to maximum saturation of the substrate until no more product can be absorbed:

Using a brush:

- brush or long-haired wool roller.

Spraying:

- at low pressure (garden sprayer)

Once the application is complete, wait at least 4 hours, then rinse the substrate using a low pressure hose (water) and, depending on the degree of contamination, accompany cleaning with brushing in order to remove the dead organisms.

We recommend waiting until the substrates are completely dry (1 to 2 days) before applying a new coating.

Advice: In order to best protect the cleaned substrates from future attacks, preventively apply:

- PRB ACTIDÉMOUSSE HP (apply with a sprayer without rinsing).
- PRB HYDROFUGE WRS (silicone free water repellent).

PRECAUTIONS FOR USE

- Read the regulatory labelling on the package and read the safety data sheet before using.

- Wear protective goggles and gloves, as well as work clothing.
- Do not ingest and avoid any contact with food.
- In the event of accidental spraying in the eyes or on the skin, rinse with plenty of clean water.
- In the event of an accident, get medical advice.
